The J. & P. Rose Test-Garden, planted spring, 1930, photographed in August. In another year this should be a glorious sight, but the photograph, as shown here, indicates the thorough testing we give to all new varieties, growing them under regular garden conditions.

We cannot undertake to supply long and much assorted lists of stock calling for only small bundles of each kind, as our business is exclusively wholesale and we do not have the facilities to handle retail orders

PYRAMIDAL MAPLE

Rapid-growing, and one of the most effective trees for screens and street-planting, taking the place of the objectionable Lombardy and other Poplars once used for this purpose but now so much in disfavor. The upper picture shows their use as a screen, acting as a rapid-growing boundary marker. The lower picture shows a 3-year-old block of these handsome trees in our Nursery.

Statement of Inspection for Trueness to Name, 1930

Amherst, Mass., July 12, 1930

To Whom It May Concern:

I have examined for trueness to name all salable Apple stock now growing in the nurseries of Jackson & Perkins Company, Newark, New York, and I now declare that to the best of my knowledge and belief these trees are true to variety name as they stand in the nursery rows.

(Signed) A. P. French.

Terms and Conditions of Sale

This list cancels all previous quotations. All agreements and contracts are made subject to crop losses through unavoidable causes.

THE PRICES in this list are based upon present market conditions and are subject to change without notice. We invite correspondence with prospective buyers, and shall be pleased to quote special prices on want-lists for larger quantities than are named herein. On the other hand, these are **wholesale prices** and apply only to **wholesale quantities**; in no case will we fill retail orders, even from nurserymen. All orders should be made up for 10's or multiples of 10.

TERMS. The usual terms are offered to those of established credit or whose responsibility is known to us. Cash, security, or satisfactory references are required from unknown parties. All bills are due in sixty days unless other arrangements are made at the time of sale. **All prices are net and not subject to any discount** unless specially agreed upon. Interest charged after maturity.

SHIPPING. Customers are requested to give definite instructions for shipping. In the absence of special instructions we will use our own judgment, but with the distinct understanding that it is without responsibility on our part. All shipments travel at the risk and cost of the purchaser. We have the New York Central, the West Shore, the Pennsylvania Railroads, also the Rochester and Syracuse interurban trolley line, enabling us to ship in any direction over trunk lines. Express is handled over three of these routes.

BOXES will be charged for at the rates noted below. These prices are somewhat reduced because we are now able to buy lumber somewhat more reasonably. However, these rates do not really cover present actual cost to us.

Add 50 cents on all sizes of 12-foot boxes; decrease in same proportion for shorter boxes.

BALES will be charged at actual cost of the material. We make no charge for packing or for delivery to the railroad station.

CLAIMS for any cause must be made promptly on receipt of goods. Any stock that is not exactly as represented must be reported promptly and on authority should be returned to us immediately. We will cheerfully and without question credit back the unsatisfactory plants, or send others; **but we will not entertain claims made after goods have been once accepted**, or when report is not made within ten days after arrival of the stock.

LIMITED LIABILITY AND NON-WARRANTY. In the event the nursery stock, or any part of it, sold by Jackson & Perkins Company, Newark, New York, should prove to be untrue to the name under which it is sold, or prove not to be of the kind or quality of nursery stock it was sold for, or ordered for, a replacement of the stock as originally ordered, or intended to be sold, without charge therefor, or a refund of the purchase price shall be a complete and entire satisfaction for any and all liability therefor of the seller, and such replacement or a refund of the purchase price it is agreed shall be the liquidated damages and all the damages to which the purchaser shall be entitled by reason of the premises. Except for such limited liability as herein set out, the seller, Jackson & Perkins Company, gives no undertaking or warranty, expressed or implied, as to the description, quality, growth, productiveness, or any other attribute of the nursery stock sold by Jackson & Perkins Company.

INSPECTION AND FUMIGATION. Certificate of Inspection will be furnished with every shipment and, when required, stock will be fumigated.

SPECIAL NOTICE. Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers nor sell to planters; we have **no retail trade** of our own, and sell **to the trade only**; in justice to our **only** customers, the nurserymen, florists, and dealers, we use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them. **Use printed stationery, or enclose business card.**

LOCATION. We are located 30 miles east of Rochester, N. Y., and cordially invite a visit and inspection of our establishment.
